Full-stack Developer | CSE Student at RUET

PROFILE

Full-stack developer and Computer Science & Engineering student at Rajshahi University of Engineering & Technology. I build practical web and mobile products across interface, API, authentication, and data layers, with a focus on thoughtful user experience and reliable delivery.

SELECTED PROJECTS

Vybebd.store | MERN E-commerce

Built a full-stack commerce platform. Worked through React SEO constraints with a client-side rendering strategy, deliberate metadata handling, and deployment-aware architecture.

Stack: MongoDB, Express, React, Node.js, SEO

rhayhan.dev | Personal Brand

Designed and built an editorial developer portfolio that presents technical work, product thinking, and a clear route to contact.

Stack: Design Systems, Responsive UI, JavaScript

E-commerce Flutter App | Mobile

Built a cross-platform commerce application translating familiar product and shopping flows into a touch-first mobile experience.

Stack: Flutter, Mobile UI, E-commerce

LinguaFlow | University Software Engineering

Contributed to a spaced-repetition vocabulary product with team documentation, MVP diagrams, personas, and individual reflections.

Stack: Product Documentation, Team Delivery, MVP
